

**All print files = W 16.5 x H 10.5**

**Make 2 folders, one called Comic .jpps and another called Print.** First save a copy of all of your original page files as .jpps, and put them in the Comic .jpps folder. Then take those .jpg files and arrange them for printing according to this layout guide and save them in the print folder.

Leave some space in the margins and gutters, about 1/4" - 1/2"
