Re-

Have you ever seen something that made you look twice, even three times, before you recognized it? The Young Curators of the Roaring Fork Valley invite you to make a unique work of art that encourages a second look. Successful submissions will choose a common idea or everyday object and distort it into something not so obvious and may use such processes as accumulation, fragmentation, shifts in perspective or viewpoint, or manipulation of the source until it is virtually unrecognizable. Works in all media are welcome.
